Journal of Dentistry, 9, No. 4, 1981, pp. 357–360 *Printed in Great Britain*

INDEX

Volume 9 Numbers 1–4 March–December 1981

Abstracts, 93, 175, 269, 356
Acrylic dentures, composition and properties of soft lining materials for, 211
Alphaseal, Nuva-seal and, fissure sealing with, two-year data, 53
Amalgams, dental, effect of surface roughness of trituration pestle and mortar on dimensional change of some, 311
Amin W. M., Fletcher A. M. and Ritchie G. M.: The nature of the interface between polymethyl methacrylate denture base materials and soft lining materials, 336
Amine-fluoride toothpaste, fluoride acquisition by surface enamel of human teeth *in vivo* following toothbrushing with, 144
Ashford J. B. and Cole P. N.: Aspects of general dental practice in the National Health Service, 1

Batchelor R. F., Lewis B. G. and Wilson A. D.: The effect of surface roughness of the trituration pestle and mortar on the dimensional change of some dental amalgams, 311
Biometric trays for complete denture construction, 126
Book reviews, 89, 171, 265, 347
Boyle P.: *see* Stephen K. W.
Braden M. and Pearson G. J.: Analysis of aqueous extract from filled resins, 141
Brown D.: Dental materials: 1979 literature review. Part I, 177
materials: 1979 literature review. Part II, 271

Campbell D.: *see* Stephen K. W.
Candida albicans, survival of, experimentally inoculated into mouths of healthy human subjects, 248
Carious teeth, some problems involved in measurement of, 43
Caruana P. E.: *see* Rood J. P.
Cement, dental, sensitive conductimetric method for measuring material initially water-leached from. 2. Zinc phosphate cements, 28
distribution during post cementation, 231
dental silicate, effect of certain experimental variables on compressive strength of, 116
Chawla H. S.: *see* Cooke M. S.
Cleaton-Jones P.: *see* Volchansky A.
Cole P. N.: *see* Ashford J. B.
Composite, visible light-cured, surface finish of, 16
Conservative dentistry, basic techniques and materials for: 2. Recent advances in restorative materials, 95
basic techniques and materials for: 3. Restoration of broken-down posterior tooth, 101
Construction, complete denture, biometric trays, 126
Cooke M. S. and Chawla H. S.: The quantitative assessment of incisor overbite: preliminary report of a new silicone squash bite technique which has epidemiological and detailed biometric application, 58
Corbett M. E. and Hardwick J. L.: The investigation of dental disease in exhumed remains, 302
Crown height, clinical, technique for computer plotting of, derived from orthodontic study models, 150

Dallat A.: *see* Swallow J. N.
Danford M.: *see* Rood J. P.
Daphni L.: *see* Mushanoff O.
Davidson C. L.: *see* de Gee A. J.
Dentist, effect of six-monthly visits to, dental treatment needs, 254
Dentures, acrylic, composition and properties of soft lining materials for, 211
base materials, polymethyl methacrylate, nature of interface between, and soft lining materials, 336
framework, partial, design of: 2. Preventing movement of partial denture base, 157
Dilatometer, modified, for continuous recording of volumetric polymerization shrinkage composite restorative materials, 36
Disease, dental, investigation of, in exhumed remains, 302

Edentulous patients, clinical study of horizontal jaw relationships in, 318
prosthetic problems resulting from facial and intraoral changes in, 71
Electrical impedance of carious teeth, some problems involved in measurement of, 43

Fatti L. P.: *see* Volchansky A.
Fletcher A. M.: *see* Amin W. M.

Gedalia I.: *see* Mushanoff O.

de Gee A. J., Davidson C. L. and Smith A.: A modified dilatometer for continuous recording of volumetric polymerization shrinkage of composite restorative materials, 36
Gillespie F. C.: *see* Stephen K. W.
Grant A. A.: *see* Laird W. R. E.
Groenestijn M. V.: *see* Swallow J. N.
Groffman D. M. and Wilson A. D.: The effect of certain experimental variables on the compressive strength of a dental silicate cement, 116
Grundy M. C.: *see* Rock W. P.

Hardwick J. L.: *see* Corbett M. E.
Howell R. A.: A clinical study of horizontal jaw relationships in edentulous patients, 318
Hypodontia, familial, in permanent dentition: case report, 260

Incisor dimensions, maxillary arch and central, in Nigerian and British population sample, 67
overbite, quantitative assessment of: preliminary report of new silicone squash bite technique which has epidemiological and detailed biometric application, 58
teeth, traumatized, effect of luxation and subluxation upon prognosis of, 224

Jacobsen P. H. and Robinson P. B.: Basic techniques and materials for conservative dentistry: 2. Recent advances in restorative materials, 95
Basic techniques and materials for conservative dentistry: 3. Restoration of the broken-down posterior tooth, 101
Jaw relationships, horizontal, clinical study of, in edentulous patients, 318
Jetley M.: *see* Sidhu S. S.

Kirkwood M.: *see* Stephen K. W.
Kroone H. B.: *see* Watson C. J.

Laird W. R. E., Grant A. A. and Smith G. A.: The use of magnetic forces in prosthetic dentistry, 328
Lewis B. G.: *see* Batchelor R. F.
Lignocaine, prilocaine—investigation into its use in presence of inflammation and in combination with, 240
Literature review, 1979, Part I, Dental materials, 177
1979, Part II, Dental materials, 271
Luxation and subluxation, effect of, upon prognosis of traumatized incisor teeth, 224

Maas-de Waal C.: *see* Swallow J. N.
McCartney J. E.: Prosthetic problems resulting from facial and intraoral changes in the edentulous patient, 71
Mack P. J.: Maxillary arch and central incisor dimensions in a Nigerian and British population sample, 67
Magnetic forces in prosthetic dentistry, use of, 328
Matsumoto H.: Some problems involved in measurement of electrical impedance of carious teeth, 43
Maxilla, melanotic neuroectodermal tumour of, 299
Maxillary arch and central incisor dimensions in a Nigerian and British population sample, 67
Mellor T. K.: Six cases of non-eruption of the first adult lower molar tooth, 84
Merson S. A.: *see* Prosser H. J.

CONTENTS OF VOLUME 9

NUMBER 1

Aspects of general dental practice in the National Health Service
J. B. Ashford and P. N. Cole 1

The surface finish of a visible light-cured composite
N. H. F. Wilson and G. A. Smith 16

A sensitive conductimetric method for measuring the material initially water-leached from dental cements. 2. Zinc phosphate cements
Havard J. Prosser, Sheila A. Merson and Alan D. Wilson 28

A modified dilatometer for continuous recording of volumetric polymerization shrinkage of composite restorative materials
A. J. de Gee, C. L. Davidson and A. Smith 36

Some problems involved in measurement of electrical impedance of carious teeth *H. Matsumoto* 43

Fissure sealing with Nuva-seal and Alphaseal: two-year data
K. W. Stephen, M. Kirkwood, D. Campbell, K. C. Young, F. C. Gillespie and P. Boyle 53

The quantitative assessment of incisor overbite: preliminary report of a new silicone squash bite technique which has epidemiological and detailed biometric application *Michael S. Cooke and Harpinder Singh Chawla* 58

Maxillary arch and central incisor dimensions in a Nigerian and British population sample *P. J. Mack* 67

Prosthetic problems resulting from facial and intraoral changes in the edentulous patient *Janet E. McCartney* 71

Six cases of non-eruption of the first adult lower molar tooth
Timothy K. Mellor 84

Book Reviews 89

Abstracts 93

NUMBER 2

Basic techniques and materials for conservative dentistry: 2. Recent advances in restorative materials *P. H. Jacobsen and P. B. Robinson* 95

Basic techniques and materials for conservative dentistry: 3. Restoration of the broken-down posterior tooth *P. H. Jacobsen and P. B. Robinson* 101

An investigation of the periapical status of post crowned teeth
Christopher H. Turner 109

The effect of certain experimental variables on the compressive strength of a dental silicate cement *D. M. Groffman and A. D. Wilson* 116

Biometric trays for complete denture construction *David M. Watt* 126

Plaque growth on dental restorative materials *Roger J. Smales* 133

Analysis of aqueous extract from filled resins *M. Braden and G. J. Pearson* 141

Fluoride acquisition by surface enamel of human teeth *in vivo* following toothbrushing with an amine-fluoride toothpaste
O. Mushanoff, I. Gedalia and L. Daphni 144

A technique for computer plotting of clinical crown height derived from orthodontic study models
A. Volchansky, P. Cleaton-Jones and L. P. Fatti 150

The design of the partial denture framework: 2. Preventing movement of the partial denture base *R. I. Nairn* 157

Book Reviews 171

Abstracts 175

NUMBER 3

Dental materials: 1979 literature review Part I — *D. Brown (editor)* — 177

Composition and properties of soft lining materials for acrylic dentures — *P. S. Wright* — 210

The effect of luxation and subluxation upon the prognosis of traumatized incisor teeth — *W. P. Rock and M. C. Grundy* — 224

Cement distribution during post cementation — *C. H. Turner* — 231

Prilocaine—an investigation into its use in the presence of inflammation and in combination with lignocaine — *J. P. Rood, P. E. Caruana, M. Danford and S. Pateromichelakis* — 240

The survival of *Candida albicans* experimentally inoculated into the mouths of healthy human subjects — *C. J. Watson and H. B. Kroone* — 248

The effect of six-monthly visits to the dentist on dental treatment needs — *J. N. Swallow, A. Dallat, C. Maas-de Waal, M. V. Groenestijn and P. A. Mileman* — 254

Familial hypodontia in the permanent dentition: a case report — *H. Tal* — 260

Book Reviews — 265

Abstracts — 269

NUMBER 4

Dental materials: 1979 literature review Part II — *D. Brown (editor)* — 271

Melanotic neuroectodermal tumour of maxilla — *S. S. Sidhu, H. Parkash and M. Jetley* — 299

The investigation of dental disease in exhumed remains — *M. Elisabeth Corbett and J. L. Hardwick* — 302

The effect of surface roughness of the trituration pestle and mortar on the dimensional change of some dental amalgams — *R. F. Batchelor, B. G. Lewis and A. D. Wilson* — 311

A clinical study of horizontal jaw relationships in edentulous patients — *Robert A. Howell* — 318

The use of magnetic forces in prosthetic dentistry — *W. R. E. Laird, A. A. Grant and G. A. Smith* — 328

The nature of the interface between polymethyl methacrylate denture base materials and soft lining materials. — *W. M. Amin, A. M. Fletcher and G. M. Ritchie* — 336

Book Reviews — 347

Abstracts — 356

Index — 357
